

Correction: Gender similarities and differences in skeletal muscle and body composition: an MRI study of recreational cyclists

Belzunce MA, Henckel J, Di Laura A, et al. Gender similarities and differences in skeletal muscle and body composition: an MRI study of recreational cyclists. *BMJ Open Sport Exerc Med* 2023;9:e001672. doi: 10.1136/bmjsem-2023-001672

It was brought to our attention that in this manuscript the terms 'sex' and 'gender' were used intermittently. While the study only included cisgender participants, for clarity, throughout the text all definitions have now been harmonised to read "sex", "male" and "female".
