The Competitive Organ Transplant Athlete

Participant Information and Consent

PARTICIPANT INFORMATION SHEET
POST GRADUATE STUDENT PROJECT
SCHOOL OF LIFE SCIENCES

Thank you for considering helping one of our students with their research work. This form explains what you will be asked to do. If you have any questions about this, please ask the student.

By signing this form, you agree to take part in the study. However, please note that you are free to stop taking part at any time.

Information about the project/Purpose of the project
This project investigates the athletic demographic of the competitive organ transplant recipient.

Why have I been chosen?
We are approaching all athletes 18+ participating at the World and British Transplant Games to see if they would be willing to take part in an online survey to investigate the sporting history of the organ transplant athlete.

Do I have to take part?
You do not have to take part in this research project if you do not want to and you do not need to give any reason if you decide not to take part.

What do I have to do?
By choosing to participate in this project, you will be asked to complete an online questionnaire surveying the athletes participating in the World and British Transplant Games.

1. You will be asked to provide some personal information on your gender, age, nationality, ethnicity, job and education.
2. You will then be asked some background information on your transplant including reason for transplant, duration since transplant and medications.
3. The survey will then ask for information on physical activity levels and sporting background, and current sporting interest.

4. The main section of the survey asks questions relating to a ‘normal training week’, asking you to provide information on days per week you train, rest, types of training, intensity of training.

5. The final questions will ask you to provide information on how you recover between training sessions, and your beliefs or barriers to improving your performance.

**What are the risks associated with this project?**

Potential information could be visible when filling out this form in a public place, therefore a link to the survey will also be supplied so the survey can be completed at home or in a place of privacy.

**What are the benefits of taking part?**

By participating in this survey, your information will allow us to build an understanding of the range of training undertaken by transplant athletes, and associated perceptions. In the long term, this will enable future research to identify target areas for training interventions and management alongside developing transplantee specific athlete and local education.

**Withdrawal options**

You are free to stop taking part in this study at any time and you do not have to give any reason for this.

Once you are happy and have COMPLETED the survey only then is information irretrievable as answers are pooled together. However, answers cannot be linked to individuals, thus keeping the survey anonymous.

**Data protection & confidentiality**

Your consent to participate in this study will be confidential. Once you have given your consent, this form will be stored securely and appropriately by which only the researcher and supervisor has access to. The consent forms will not be stored with other data that belongs to the study, therefore ensuring no connections. These will be held for the maximum period of 5 years, and then will be destroyed securely. This time frame is determined by the need for access to this information in the unfortunate case of an unanticipated problem or a complaint. At the expiry date this information will be destroyed securely by the Faculty Research Support Officer.

Throughout this investigation, all information is kept anonymous and blind to the researcher. Participants codes are used with the electronic documents so that individuals cannot be identified.

**Who should you talk to if you have questions or you wish to make a complaint?**
If you have any questions or queries Thomas Hames will be happy to answer them. If they cannot help you, you can speak to my Director of Studies.

If you have any questions about your rights as a participant or feel you have been placed at risk you can contact my Director of Studies.

**What will happen with the results of the study?**

Any data/results from your participation in the study will be used by Thomas Hames as part of their project work. The data will also be available to Dr Mike Price as director of studies and the supervisory team of Dr Doug Thake and Sheila Leddington Wright. It may also be published in scientific works, but your name or identity will not be revealed.

**Who has reviewed this study?**

This study has ethical approval from Coventry University

**Key contact details**

Thomas Hames  
ab8077@coventry.ac.uk  
Dr Mike Price  
aa5969@coventry.ac.uk

Please tick YES below to confirm that by filling in this questionnaire you are confirming that: You give consent to use your questionnaire answers in this research study. You have read and understood the information above about the study You understand that your participation is voluntary and that you are free to withdraw at any time without giving a reason You understand that all the information you provide is anonymous If you do not agree then please tick NO to exit the questionnaire.

**Post code:**

**How long have you lived at this post code:**

Dates need to be in the format 'DD/MM/YYYY', for example 27/03/1980.

**Education - Highest current academic qualification:**
What is your current occupational status?:
Employed
Unemployed
Self employed
Student Retired

Is your occupation a FULL time or PART time post?:
Full time
Part time

About your transplant

1st Transplant type:
The following section asks you about your transplant.
Heart
Kidney
Liver
Lung
Pancreas
Intestine
Thymus
Marrow
Other
If you selected Other, please specify:

What was the reason for the transplant?:

How long did it take between initial diagnosis for condition to receiving the 1st transplant?:

Your age at 1st transplant?:
Approximate date of 1 organ transplant?:

Dates need to be in the format 'DD/MM/YYYY', for example 27/03/1980.

(dd/mm/yyyy)

Further organ transplantations, reason and age at the time of each transplantation?

Yes

No

Have you had any complications or rejection episodes post-transplant?:

If yes, how what was the complication, and how long ago was this?

Age of donor transplants (if known?):

Your medications

The following section explores the medications currently used to manage your transplants and other pathologies while you are competing.

List any medication you are currently taking:

<table>

Your sporting background

The following section explores your participation in sport pre-transplantation.
Did you participate in sport before your transplant?:

Yes

No

At what level did you previously compete?: Name sporting event(s) and whether it was International, National, County or Club level and highest national rank if known?

For a regular training week, how many days per week did you train:

0 1 2 3 4 5 6 7

For a regular training week, how many sessions per week were you participating in?:

Please don’t select more than 1 answer(s) per row.

<table>
<thead>
<tr>

<th>135 min</th>
<th>150 min</th>
</tr>
</thead>
</table>
The following question uses the Rate of Perceived Exertion scale (RPE) to establish how physically demanding you felt each of the sessions were (Borg 1982).

**RPE SCALE - HOW INTENSE DOES IT FEEL?**

1 = Very easy  
2 = Easy  
3 = Moderate  
4 = Somewhat hard  
5 = Hard  
6  
7 = Very hard  
8  
9  
10 = Maximal

For a regular training week, how intense were the training sessions you participated in. Please tick the average intensity level best related to each

Please don't select more than 1 answer(s) per row
For how many years/months had you been training at this level?:

Your initial physical activity involvement post-transplant

This section explores your reintroduction to physical activity post-transplant

Did you receive any advice on exercise post-transplant?

No

Doctor

Therapist
Coaching inputs

What did they advise you to do?

How many months post-transplant did you start to participate in physical exercise (general or as part of rehabilitation)?

What type/s of exercise were you participating in 12 months post-transplant. For a normal week how many sessions were you participating in, and were they GUIDED (devised by another professional) or your own plan. Please don't select more than 1 answer(s) per row.

Your training and event preparation

This section reviews current strategies used to help athletes prepare for training sessions and event preparation.

Do you currently have a set protocol / warm up to help you prepare for COMPETITION? (Brief description, types of warm up and duration)

How long does your normal competition warm up last?

Do you currently have a set protocol / warm up to help you prepare for TRAINING sessions? (Brief description, types of warm up and duration)

How long does your normal training session warm up last?

Is there anything you feel in particular inhibits your event preparation? (E.g. difficulty increasing heart rate, quality of breathing etc)

If so, Is there anything you have done to try and improve on this?
Your training loads (Normal training week)

This section looks at the load and types of training you currently participate in.

When calculating session durations, please round to the nearest 15 minutes, e.g: 1=15min, 2=30min, 3=45min, 4=60min, 5=75min, 6=90min, 7=105min, 8=120min, 9=135min, 10=150min etc.

For a normal training week, how many days per week would you regularly train for your events? (all types of training sessions): 1 2 3 4 5 6 7

For a normal training week, how many training sessions would this involve? (Include multiple sessions within a day): 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15

For a normal training week, what types of sessions would you participate in?

Crossfit
Cycling
Gym based cardiovascular training (Treadmill etc)
Gym based resistance training
Pilates
Road running
Self-directed
Track and Field
Yoga
Other

If you selected Other, please specify:

The following questions consider your training load using a scale of 0-10.

Only fill in the types of sessions you participate in, leave blank and SKIP sessions you do not participate in.

In regards to session DURATION, round to the nearest 15 minutes: 1=15min, 2=30min, 3=45min, 4=60min, 5=75min, 6=90min, 7=105min, 8=120min, 9=135min, 10=150min.

In regards to the session INTENSITY question, refer to the Rate of Perceived Exertion scale (RPE) to judge on average how physically demanding sessions felt (Borg 1982).
RPE SCALE - HOW INTENSE DOES IT FEEL?

1 = Very easy
2 = Easy
3 = Moderate
4 = Somewhat hard
5 = Hard
6
7 = Very Hard
8
9
10 = Maximal effort

If in a normal training week you participate in GYM based sessions, please can you identify what type, how many, the average duration and perceived intensity using the scales noted above. If you do not do any of these, please SKIP and move to the next.

Please don't select more than 1 answer(s) per row.

If in a normal training week you participate in COURT (Volleyball, tennis, table tennis etc) training sessions, identify what type, how many, average duration and intensity using the scales noted above. If you do not do any of these, please SKIP and move to the next.

Please don’t select more than 1 answer(s) per row.
If there are any other type of training you regularly participate in, please give details of: Type of session, Number of sessions, Intensity (RPE) and DURATION (multiples of 15min) in the box below.

Do you perceive there is anything currently limiting your ability to perform at your potential?
Yes No

If yes, what do you perceive is limiting your athletic ability?

Is there anything you are you currently doing to work on this?

---

**Recovery**

The following section explores any current recovery strategies you may have adopted to enhance your ability to compete or train.

At present, how long do you feel it takes for you to fully recover after a hard training session or competition?:

Do you currently follow any recovery protocol after competing or following training sessions?:

None at present

Gentle jog

Stretch (When feel tight)

Stretch (After sessions)

Foam roll (When feel tight)

Foam roll (After sessions)
Cryotherapy (Immersed)
Cryotherapy (Ice pack)
Structured plan
Other

If you selected Other, please specify:

If you use a recovery strategy, indicate which type/s of sessions you regularly use it after?

For a normal training week, please indicate the proportion of sessions you manage to carry out a recovery protocol after:

After every session
Only after competition
After a hard session (RPE 7+)
After 75% of sessions
After 50% of sessions
After 25% of sessions
Other

If you selected Other, please specify:

How long following a race or training session do you feel it takes for your heart rate (HR) to return to a resting state?:

Please don't select more than 1 answer(s) per row.

In relation to training on BACK to BACK DAYS, how recovered do you feel before starting the second day?

Please don't select more than 1 answer(s) per row.

<table>
<thead>
<tr>
<th></th>
<th>1 = VERY sore, tired stressed, poor recovery</th>

Compared to an event matched non-transplantee athlete, do you perceive you can train as the same session load for the same intensity?

- Needs adjusting from the start
- 25% of the time
- 50% of the time
- 75% of the time
- 100% of the time

If not 100% of the time, what do you often change about your training session?

- Same session - just longer breaks
- Same session - just reduce intensity
- Same intensity - reduce reps / sets
- Other

If you selected Other, please specify:

Compared to an event matched non-transplantee athlete, do you perceive you recover equally for back to back training sessions on the SAME DAY?:

<p>| Mood                              |                                                                 |                                                                 |           |                |                                                      |
|-----------------------------------|-----------------------------------------------------------------|----------------------------------------------------------------|-----------|                |                                                      |</p>
